UNIVERSITÉ PARIS 1

10th INTERNATIONAL CONFERENCE ON OPERATIONS RESEARCH

Habana, March 6-9, 2012

The conference is devoted to aspects of modeling, computational handling, and applications of the topics listed below. Original contributions and interesting applications are welcome. Particular attention will be given to papers fostering research at the interfaces.

Topics

Optimization

Probability and Statistics

Partial Differential Equations

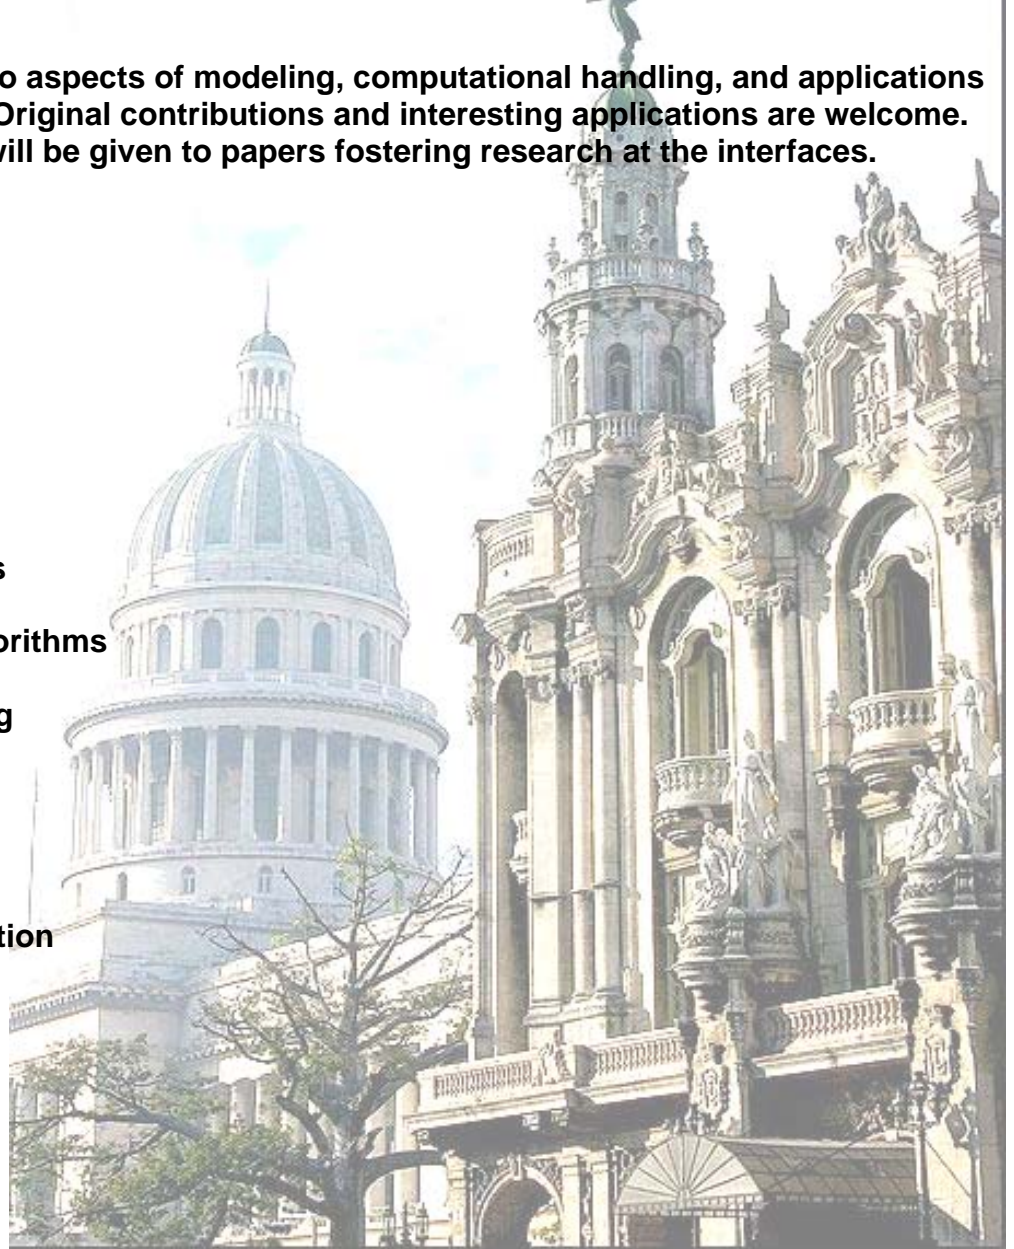

Numerical Analysis and Algorithms

Multicriteria Decision making

Dynamical Models

Management Sciences

Operations Research Education

Registration and General Information
